

MULTI CHOPPER

with innovative speed regulation

Extra strong, extra large – for perfect results

ROMMELSBACHER

Sometimes you just need a little more! And precisely for this case, ROMMELSBACHER has developed these high-quality extra-large multi choppers. Chopping, slicing, pureeing, blending - with a light press of the start/stop button, the appliance processes onions, herbs, vegetables, fruit, nuts, meat and more. The speed of the blade can be regulated in 22 settings so that every food is perfectly chopped, and every mixture is perfectly prepared. Healthy, vitamin-rich raw vegetable salads, creamy spreads, imaginative dips, pesto and much more are created in no time at all. The multi-winged blades (6 on the MZ 600, 9 on the MZ 800) are made of stainless steel, work extra efficiently thanks to their arrangement and deliver perfect results. The clear glass container is extremely robust, food-neutral, hygienic and very easy to clean. A powerful motor meets all requirements quietly and with low vibration. The integrated safety features make working safe. All removable parts can go in the dishwasher for easy cleaning. This practical and reliable multi chopper is available in two sizes, so there is a suitable XL-model for every large household.

MZ 600:
6-winged special blade

MZ 800:
9-winged special blade

Technical data:
