Spice & coffee grinder EGK 250

For grinding, chopping, pureeing ...

*control of time
and speed*

2 removable
stainless steel containers

This special spice & coffee grinder from ROMMELSBACHER is perfect for grinding and crushing coffee beans, sugar, spices, herbs, nuts, grains and for preparing pesto, rubs & sauces. The two different work containers made of hygienic stainless steel allow for very variable use: freshly ground coffee powder can be made in the grinder cup and dry spices such as peppercorns, coriander and caraway can be ground in no time at all. It can also be used to finely pulverize salt or sugar. Fresh herbs can be crushed in the universal cup and pesto, or grill rubs can be prepared. For the perfect grinding process, time and speed can be set in several stages guaranteeing a consistent result every time. Manual operation is possible using the pulse function. The removable containers are made of solid stainless steel and are very easy to clean as they can also be put in the dishwasher. The EGK 250 spice & coffee grinder is an indispensable kitchen helper that even the most demanding hobby chefs will quickly take to their hearts.

- easy-care stainless steel housing
- powerful but quiet motor
- simple to use: timer 5 – 30 seconds in 5 second steps, 3-step speed control, pulse function for manual operation
- safe handling: can only be used if housing lid is in place, safety cut-off when lid is opened, 4 non-slip silicone feet for a safe stand
- detachable transparent housing lid, all removable parts are dishwasher safe
- Including:
 - 2 high-grade stainless steel containers, each with a transparent lid
 - grinder cup with 2-winged blade
 - universal cup with 4-winged special blade
 - coffee scoop with cleaning brush

Milk frother MS 625

For milk froth in barista quality

The attractive MS 625 milk frother with removable glass jug perfects the convenient preparation of cold or hot milk froth. Whether made from cow's milk or plant-based milk alternatives, it can be used to make classic and contemporary coffee delicacies as well as the latest barista trends. Thanks to the universal agitator which can be removed for easy cleaning, this milk frother offers 5 practical functions for milk & milk alternatives. The best operating safety is ensured and the fact that all removable parts can be put in the dishwasher makes the user-friendliness perfect.

- perfect milk froth (hot & cold), gently heated dairy drinks, also from plant-based milk alternatives such as oats, soy, almonds, etc.
- removable glass jug, for pouring with pinpoint accuracy, with glass handle and transparent lid
- removable universal agitator with magnetic drive
- large capacity: 250 ml for frothing, 500 ml for stirring
- base station with integrated heating, no pre-heating of the milk necessary
- easy-to-use operating concept: button for programme selection, start/stop button, clear LED displays, automatic switch-off
- 5 programmes for milk and milk alternatives
- safety during operation: can only be started with the jug in place, acoustic signal at the end of the programme, non-slip silicone feet

5 programmes for milk and milk alternatives:

fine-pored firm milk froth (hot)

creamy fine milk froth (hot)

cold milk froth

hot stirred milk

gently stirred hot chocolate

Multi chopper MZ 600 · MZ 800

with innovative speed regulation

Sometimes you just need a little more! And precisely for this case, ROMMELSBACHER has developed these high-quality extra-large multi choppers. Chopping, slicing, pureeing, blending - with a light press of the start/stop button, the appliance processes onions, herbs, vegetables, fruit, nuts, meat and more. The speed of the blade can be regulated in 22 settings so that every food is perfectly chopped, and every mixture is perfectly prepared. Healthy, vitamin-rich raw vegetable salads, creamy spreads, imaginative dips, pesto and much more are created in no time at all. The multi-winged blades (6 on the MZ 600, 9 on the MZ 800) are made of stainless steel, work extra efficiently thanks to their arrangement and deliver perfect results. The clear glass container is extremely robust, food-neutral, hygienic and very easy to clean. A powerful motor meets all requirements quietly and with low vibration. The integrated safety features make working safe. All removable parts can go in the dishwasher for easy cleaning. This practical and reliable multi chopper is available in two sizes, so there is a suitable XL-model for every large household.

- stainless steel housing, robust glass container
- powerful, low-vibration and quiet motor
- sturdy drive system: blade axis and motor coupling made of stainless steel
- 22-stage speed regulation of the blade unit, start/stop button
- maximum safety: safety system to prevent unintentional use, start only possible with lid in place, auto-stop in case of overheating, non-slip ring, blade guard
- all removable parts are dishwasher-safe

Induction cooking plate CT 3430/IN

Mobile, flexible and economical!

Induction

touch
control

The special feature of this mobile double cooking plate is the vertical alignment of the cooking zones. The domino format enables optimum utilisation of the workspace, making this high-quality cooking plate from ROMMELSBACHER particularly suitable for small kitchens, offices and apartments. The super-flat design and high-quality materials do not only give a stylish appearance to the CT 3403/IN, but also ensure convenient handling. With 10 power and 10 temperature settings, even ambitious chefs will get their money's worth. The control via Slider Touch sensors, the high efficiency of induction and the easy-care, continuous glass ceramic surface are just some of the features that characterise this double cooking plate in domino format. Functions such as residual heat indicator, childproof lock and pan detection also offer a high level of safety when using this attractive, mobile induction cooking plate.

- 2 cooking zones, each 120 to 260 mm Ø (1800/1300 W)
- super-flat design, height only 43 mm
- space-saving domino format with vertically arranged cooking zones
- energy-saving induction technology, electronic control
- operation via Slider Touch & Touch Control sensors, LED display
- high-quality glass ceramic surface, seamless and easy to clean
- for induction-compatible cookware from 120 to 260 mm Ø.
- 10 power levels, 10 temperature levels from 60 °C - 240 °C
- 180-minute-timer with signal tone, pause function and switch-off function
- maximum safety: residual heat indication, childproof lock to prevent unintended operation, pilot lamps, pot detection, automatic switch-off and non-slip feet

Type: CT 3430/IN

INNOVATION!

Mobile cooking has never been more flexible than with this innovative induction cooking plate by ROMMELSBACHER. This mobile cooking plate is perfect as an additional cooking plate in your kitchen at home, but can also be used reliably with electricity from the inverter in a motorhome or garden shed (photovoltaic). The special Rommelsbacher POWER switch technology with power limitation combined with modern induction technology ensures optimum efficiency.

- compact design, space-saving and light for mobile use
- high-quality, robust, easy-care glass ceramic surface
- for induction-compatible pots and pans from 12 to 20 cm Ø
- LED display, 9 power levels, control via touch sensors
- memory function: selected ampere setting can be stored for the next use

- POWER switch: needs-based limitation of current/power to the existing power grid or to the available currents
 - 10-amp setting (power up to 1800 W) – for use with shore power or with the normal mains power at home
 - 6-amp setting (power up to 1250 W) – for operation on campsites or with inverter in the camper van
 - 4-amp setting (power up to 800 W) – for use with photovoltaic systems, emergency power generators, power stations/mobile storage systems
- very simple to use, very quiet operation due to optimized fan control for housing cooling
- maximum safety thanks to pot recognition, residual heat indicator, pilot lamps, overheating protection, automatic switch-off and non-slip silicone feet
- includes detachable power cord and handy storing bag

Domino built-in hob EBC-H 3520/IN

with power management & power limitation

The model EBC-H 3520/IN with high-quality SCHOTT CERAN® glass ceramic surface is an exceptional built-in induction hob "Made in Germany" in horizontal format. This slim Domino hotplate was developed to meet the specific requirements of the camper & motor-home sector in the very best possible way. Thanks to the clever power management with adjustable power limitation, this model can also be operated variably with an inverter – depending on the available power source. This induction hob cuts a fine figure as a fully-fledged cooking zone anywhere – whether at home, in the office or in a holiday flat. The two round cooking zones are controlled via touch control sensors, while the 9-step power selection with power boost function guarantees the fastest heat-up. A 99-minute timer and various safety functions ensure convenient operation.

- frameless SCHOTT CERAN® High Trans Eco glass ceramic surface: solid and easy to clean
- cooking zone 90 - 160 mm Ø up to 1400 W (booster 2100 W)
cooking zone 110 - 200 mm Ø up to 2300 W (booster 3000 W)
- power management and adjustable power limitation, thus perfect for operation with inverter (as of 1500 W), with memory function
- the maximum power consumption can be configured in 8 levels to match the existing power supply (1500 W, 1800 W, 2000 W, 2300 W, 2500 W, 3000 W, 3500 W und 3700 W)
- electronic control via touch control sensors
- immediate power transmission, extremely short heat-up time by induction technology
- LED display, 9 power levels, power boost function, keep-warm level
- integrated timer, cooking zones with 99-minute timer with automatic switch-off and signal tone
- safety functions: sensor lock, child-proof lock, runtime limiter, overheating protection and residual heat indicator, pot detection
- installation dimensions: 275 x 470 x 80 mm
- power cord with safety plug
- complete with installation kit

Domino built-in hob EBC-V 3510/IN

flexibility in power consumption & cooking surface size

The EBC-V 3510/IN model with high-quality SCHOTT CERAN® glass ceramic surface is an exceptional built-in induction hob "Made in Germany" in vertical format. This domino hotplate was developed for maximum flexibility, so that it also meets the specific requirements of the camper & motorhome sector in the very best possible way. Thanks to the implementation of an intelligent power management system with freely adjustable power limitation, this model can also be operated variably with an inverter, depending on the available power source. Perfect for allotments gardens and motorhomes, but also ideal as a reliable and fully fledged hob at home, in the office or in your holiday apartment. Another special feature of this model is the practical bridge function which allows to connect the two square cooking zones to one large hob, so that larger induction cookware (e.g. roasters) can also be used. The cooking zones are controlled via touch control sensors, while the 9-stage power selection with power boost function guarantees the fastest heat-up. A 99-minute timer, the soft slider control with Smart Keys and various safety functions ensure ease of use.

- frameless SCHOTT CERAN® High Trans Eco glass ceramic surface: solid and easy to clean
- two square cooking zones, each 190 x 190 mm, each up to 2100 W (booster 3000 W) for induction cookware from 110 mm diameter
- power management, flexible power limitation, thus perfect for operation with inverter (as of 1500 W), with memory function
- maximum flexibility: the maximum power consumption can be freely configured in 100 W steps between 1400 W and 3700 W to match the existing power supply
- with bridge function: connection of the 2 square cooking zones to form one large hob
- convenient slider control with smart keys for a good overview and intuitive use
- electronic control with Touch Control sensors
- immediate power transfer, extremely short heating time thanks to induction technology
- LED display, 9 power levels, automatic cooking system, power boost function, keep-warm level
- integrated timer, cooking zones with 99-minute timer with automatic switch-off and signal tone
- safety functions: sensor lock, childproof lock, runtime limiter, overheating protection and residual heat indication, pot detection
- installation dimensions: 270 x 480 x 80 mm
- power cord with safety plug

Warming trays WPR 307/E · WPR 407/E

Whether at home or for festive catering - mobile warming trays „Made in Germany“

WPR 407/E

WPR 307/E

Here it is – the perfect solution for the delicious buffet, a cozy brunch, or a wonderful banquet. These superior warming trays of noble design, with practical and shapely stainless steel handle and a big warming surface, providing ample space for accommodating 1/1 standard size GN food containers. The heating system comes incorporated in the high-quality thermally hardened float glass and is very efficient as a result. The ON/OFF switch with integrated pilot lamp and the infinitely variable temperature regulator are both located on the side of the appliance to make sure even several appliances can be lined up in tandem position side by side. The power cord can be removed for storage and the warming tray can also be stored vertically to save space. Professional equipment of reliable quality, ideal for use at buffets and in catering, but also the best choice for celebrations at home!

- superior, easy-care housing made of brushed stainless steel
- thermally hardened float glass with integrated heating system for efficient heat distribution
- infinitely variable temperature via thermostat from approx. 40 to 105 °C
- ON/OFF-switch with integrated pilot lamp
- solid stainless steel handle, space-saving upright storage
- several appliances can be combined in tandem position
- removable XXL cord (2.5 m) with safety plug

WPR 307/E

- heating surface 53 x 32.5 cm for one food container in 1/1 GN format and its subdivisions

Dehydrator DA 650

This small appliance is simply great!

This small appliance is simply great! To complete our series of stainless food dehydrators, we can now also offer you a compact version, the model DA 650. It is small on the outside and large on the inside! Despite its compact outside dimensions, it offers a dehydration area of 0.5 m² on the inside. It is perfect for preparing traditional dehydration recipes with fruit, vegetables, and herbs, as well as the latest trend foods such as beef jerky, fruit leather or vegetable chips, even in a small household. Time and temperature can be adjusted to the food in question. Operation is also as easy as pie. For gentle dehydration, a fan inside the appliance ensures even heat distribution and moisture removal. Vitamins, minerals, and fibre are largely preserved. The results are 100 % natural, without additives or preservatives. Whether the small, full-size or XXL model – our food dehydrators are perfect for a consciously healthy diet!

- space-saving appliance with double-walled housing, made of stainless steel
- large dehydration area 0.5 m²
- LCD display, Touch Control sensors, 99-hour timer
- temperature adjustable from 35 °C to 75 °C
- individually programmable favourites programme, keep warm function
- solid glass door with magnetic catch
- extra-long XL power cord (1.9 m), cord storage
- 7 dehydration trays made of stainless steel (27.5 x 25 cm), 1 dehydration grid and 1 dehydration plate (both made of synthetic material, BPA-free)

Dehydrator series:

Barbecue grill with grill caddy BBQ 4100/S

- set consisting of the Barbecue grill BBQ 4000 and BBQ caddy BGW 100

BBQ caddy BGW 100

- accessory for Rommelsbacher Barbecue grill BBQ 4000
- solid construction for stable and safe stand
- practical storage compartment, mounting material
- 2 removable table supports for easy attachment to the side handles of the grill

Barbecue grill BBQ 4000 / BBQ 4100/S

A true champion for pure grilling pleasure – everything turns out perfectly!

Our electric version of a traditional barbecue grill combines the advantages of electric grilling with the benefits of a barbecue grill with a lid. An electric barbecue works quickly, safely, and cleanly, which sets it apart from gas and charcoal barbecues and makes it absolutely contemporary. The BBQ 4000 is so compact that it is ready for use quickly and without lengthy preparation on the balcony or in the garden. All you need is a power socket and the barbecuing fun can begin. The lid ensures optimum heat storage during indirect grilling; the temperature display allows you to always keep an eye on the grilling temperature. The solid grill grid made of **cast iron** is perfect for leaving classic grill marks on the food. Compact, powerful (**up to 300 °C!**) and mobile – the BBQ 4000 can be used indoors and outdoors. Whether used alone as a BBQ table top grill or together with the BGW 100 barbecue caddy as a mobile barbecue station: the BBQ 4000 makes barbecuing with friends and family a real pleasure.

- housing and hinged lid made of solid steel with a heat-resistant and sturdy paint finish, 4 stable feet for a secure stand
- high-quality 2-piece grill grid made of solid cast iron
- hinged lid with heat-insulating heat protection shield for optimum heat distribution and heat storage
- ribbed grilling surface for typical grill marks, perfect for steak, burger, sausages, pulled pork, spare ribs, vegetables, etc. also suitable for preparing pizza (with pizza stone)
- external temperature gauge
- powerful stainless steel heating element for quick heating up
- temperature infinitely adjustable up to 300 °C, also suitable for low-temperature cooking
- removable temperature control, extra-long XL power cord (1.75 m), pilot lamp
- side handles for safe handling, removable drip tray

Table top grill BBQ 2025

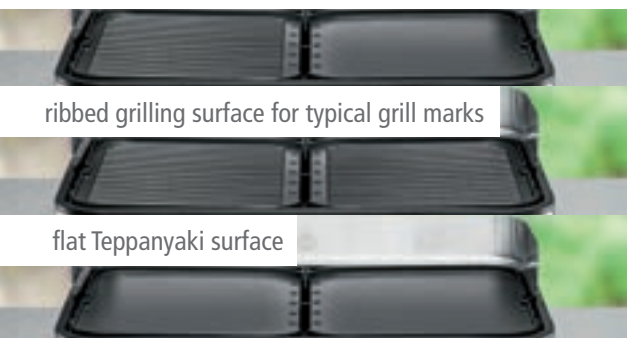

Pure grilling pleasure indoors and outdoors

An electric table top grill in a class of its own, with plenty of power and outstanding materials for perfect grilling pleasure indoors and outdoors. Whether grilling on the ribbed BBQ surface or cooking on the flat Teppanyaki side of the two reversible grill plates – the results are always perfect and naturally low in fat thanks to the inclined plates. The grill plates are equipped with a modern, high-quality ceramic non-stick coating, which is PFAS-free. The temperature of the two plates can be regulated separately up to 230 °C, so that you can sear hearty steaks wonderfully hot, but also gently bake delicious pancakes. Convenience and safety are perfectly combined. The XXL power cord and the removable splash guard are just as impressive when it comes to handling as the infinitely variable temperature control with overheating protection when grilling. The BBQ 2025 is a mobile table top grill that will quickly become the best grilling friend in any household.

- 2 high-quality reversible grill plates made of solid aluminium die-cast, each 28.5 x 22.5 cm
- versatile combination possibilities:
 - o ribbed grilling surface for typical grill marks
 - o flat Teppanyaki surface
 - o both grilling areas can be regulated separately
- temperature infinitely settable up to 230 °C
- high-quality ceramic non-stick coating (PFAS-free), suitable for cleaning in the dishwasher
- grill plates slightly inclined inwards for low-fat grilling
- on/off switch, pilot lamps, double overheating protection
- extra-long XXL power cord (2 m)
- removable drip tray, removable splash guard/windscreen
